### OVERVIEW

With govMeetings Legistar, the Alameda Contra Costa Transit District (AC Transit) is not only saving time and money on agenda management, they're also delivering on goals to automate, collaborate, and become as paperless as possible.

### SITUATION

AC Transit had a labor-intensive manual process for preparing, printing, reviewing, approving, and publishing their agendas and supporting documents: Draft reports were shepherded manually up and down each of ten floors in the Oakland headquarters and then left on desks for review and approval.

### SOLUTION

With Legistar, the team at AC Transit has automated the entire agenda management process and customized it to fit their needs.

### RESULTS

Developing the agenda used to take up most of the focus in the district secretary's office. Now they can focus on other matters, and soon will take on the completion of a formal records management policy for the entire district.

### MUST HAVE SOLUTION

govMeetings

“ If you're considering Legistar, it's entirely worth it. The product embodies internal trust and transparency. It's where everything comes together. If you want to break down silos, this is a great way to do it”

- Linda Nemeroff, AC Transit District Secretary
