Granicus is Transforming how Government and People Connect Digitally

What if You Could...

- ✓ **Enable an inclusive government** that delights users by helping them easily access, find, and understand government information and services 24/7?
- ✓ **Go paperless** with streamlined workflows for any service, from simple to complex?
- ✓ **Use actionable data insights** that engage users with personalization at every step of the experience?
- ✓ **Develop and maintain relationships** by building, launching, and optimizing digital service programs?

myRSVL Project and Lessons Learned

myRSVL - Customer Relationship Management

Message from Melissa

This week we are publishing the myRSVL mobile application!

You can download to your Apple or Android devices and submit requests just like our residents.

As a reminder we have one more open session training with QSA on Wednesday, September 20 from 9:30 – 10:30 a.m. in the IT Conference Room #2.

If your team still needs training, please schedule a session with Melissa Hernandez or Christian Barajas.

Reminder: We are just a short two weeks from our October 2 Public (soft) Go Live. Stakeholders, please make sure you are signing off on the October 2 External (soft) Go Live Sign Off sheet or provide the percentages of complete for each of the criteria the group wanted to have done prior to go live.

Melissa Hernandez, CRM Project Manager

Upcoming Deadlines

October 2 External (soft) Go Live Sign Off sheet including Department Head

myRSVL - Customer Relationship Management Project

What is myRSVL?

myRSVL is the name of our customer relationship management (CRM) system. myRSVL is an omni-channel software solution that assists in tracking service requests and report on the progress of those requests through a custom phone app, dedicated web portal and chatbot named Rosie. It is a top priority of City Manager Dominick Casey.

Why is myRSVL important?

As our city grows our priority is to provide citizens with the best technology available for public agencies. This system will increase civic engagement and create a gateway for residents to access resources and services the city provides.
